Summary

Final-year Computer Science student at the University of Bristol with hands-on experience in software development. Seeking a graduate role where I can apply my skills in programming, backend systems, and cloud technologies gained from industry experience and academic projects.

Projects and Experience

Tesco Software Development Internship | Jun 2024 - Aug 2024

- Redesigned and programmed a new interface for an outdated system, reducing support queues by 50%
- Restructured backend for enhanced security, protecting sensitive data
- Tripled product data availability by optimising data access and translations for Central European regions.

Software Engineering Project (National Composites Center) | Sep 2023 - May 2024

- Developed a web app using multiple technologies for a real-world client
- Used Agile development over 30 weeks to adapt the project based on client feedback.

Distributed Conway's Game of Life | Sep 2023 - Jan 2024

- Built parallel and distributed versions of Conway's Game of Life in Golang using AWS to run concurrent nodes

Scotland Yard Games project | Jan 2023 - May 2023

- Developed a turn-based Java game, applying design patterns and implementing AI using a minimax algorithm.

Bristol Student Mentorship | Sep 2024 - Ongoing

- Leading a student group through a software engineering project, guiding them in frameworks, languages, and technologies.

Summer Camps Activity leader (Cascades) | Apr 2023 - Sep 2023

- Organised and led activities for children, liaising with parents and honing communication and leadership skills.

BOSS events staff | Aug 2023

- Providing staff services at events in London including Hampton Court Garden festival, contributing both customer service and sales of show guides to customers.

Education

BSc Computer Science | University of Bristol | Sep 2022 - Jun 2025 (Expected First Class)

- Proficiency in Java, C, Python, Golang, Haskell, SQL and frameworks such as React, Angular and Springboot
- Use of cloud technologies such as AWS, Azure, MongoDB Atlas
- Relevant coursework: Algorithms, Distributed Systems, Security, Machine Learning, Software Engineering, Data Science
- Predicted First Class, averaging 80% in 1st and 2nd year.

A-levels | Berkhamsted Sixth Form | Sep, 2020 - Jun, 2022

- 4 A*'s in Mathematics, Further Mathematics, Computer Science, Physics

IGCSEs | Berkhamsted School | Sep, 2017 - Jun, 2020

- 8 9's, 2 8's, A in Additional Mathematics

Technical Skills:

- Languages: Java, C, Python, Golang, Haskell, SQL
- Frameworks: React, Angular, Springboot
- Cloud Technologies: AWS, Azure, MongoDB Atlas
- Development Methodologies: Agile, Distributed Systems

Soft Skills:

- Leadership, Communication, Time Management, Problem Solving

Achievements:

- Runner-up in Tesco's intern hackathon (Special Mention: Most Complex Entry)
- Top 10 Computer Science student in the 2nd year at the University of Bristol
- Competed in coding competitions such as Google CodeJam and Bristol challenges
